RE: Environmental Health Laboratory schedule week of Feb. 15 – Feb. 19, 2016

To our valued clients:

Alaska state offices will be **closed** on Monday, February 15th in observance of Presidents' Day.

As a result, the sample acceptance schedule for that week must be modified, as follows:

- Shellfish Growing Water (SGW) samples will be accepted Tuesday Feb. 16 and Wednesday Feb. 17.
- Paralytic Shellfish Toxin (PST) commercial samples will be accepted Tuesday Feb. 16 - Friday Feb. 19.
- Slaughter samples (meat and sponge) will be accepted Tuesday Feb. 16 - noon Thursday Feb. 18, however samples are pooled for efficiency, generally once a week.
- Manufactured and Cottage food samples will be accepted Tuesday Feb. 16 – Friday Feb. 19, however the testing will be conducted when samples are pooled for efficiency.
- Dairy testing is scheduled once a month, as normal, and is already scheduled for week of Feb. 8.

Normal sample acceptance schedules resume on Monday February 22, 2016.

Assistance is available with timing of samples collections, completion of submission forms, packaging, temperature requirements, shipping, and sample tracking. Sampling questions, planned sampling activities, and shipping notifications, can be made to DEC.EH-Lab-ShippingReceiving@alaska.gov or 907-375-8231.
